PROFILE

I am a passionate and dedicated web developer with a strong foundation in coding and problem-solving, cultivated during my studies at the IT University of Thessaly in Greece. With a natural affinity for technology, I enjoy spending hours honing my skills and tackling complex coding challenges. Beyond my technical abilities, I bring a diverse background of over 10 years in various roles such as a waiter, barman, and gardener, which has equipped me with excellent communication and teamwork skills. Outside of my professional pursuits, I play football for a local team and perform music with a local band, demonstrating my commitment to both physical and creative endeavors. My unique blend of technical expertise and diverse life experiences makes me a well-rounded candidate eager to contribute to dynamic web development projects.

EXPERIENCE

FullStack Web Developer at e-nutritionist.com

I am the fullstack developer at e-nutritionist.com a nutritionist website that features ruby on rails, postgresql and a react js libraries. I am in charge of all roles as designing the page, in charge of the frontend, postgresql as database and the ruby on rails backend and the team leader alongside with some AI tools.

FrontEnd Web Developer at smartride.gr

I am the frontend developer at smartride.gr a scooter rental website that features react js library custom css and some php for form handling. I am in charge of all roles as designing the page, taking the photos and of course making everything work fast and smooth and effective.
